

ARMERA®

Installation Instructions

Cabinet Basins | Counter-top Basins | Wall mounted basins

Before starting installation

Before proceeding with the installation, please make sure the basins are free from damage. These products are made from vitreous china, so please take every care when handling them to avoid chips and cracks.

Installation Instructions

Silicon sealant must be applied to the underside of the basin to seal it to the surface onto which it is being mounted. Silicone sealant should also be applied along the joint between the basin and the wall (where appropriate) For basins with no overflow, a free flow waste must be used.

Wall mounting

Basins with holes at the rear are suitable for wall mounting. Wall mounting kits are not supplied with basins. Please refer to instructions provided with appropriate wall mounting kit.
