

# ARMERA<sup>®</sup>

## Installation Instructions

### Deckmounted shower kit

SH.333

## Please Note

Please follow all instructions carefully. Failure to do so could invalidate your guarantee. As with the installation of any water bearing product, you must make sure that any laws prevalent to your area are followed. Such laws may include Local & National Water Supply Authority Regulations or Byelaws and Building and Plumbing Regulations. We recommend that a qualified registered plumber is used to install your product. Please ensure that when fitted, the product is easily accessed for service and maintenance requirements. Armera cannot be held liable for costs associated with accessing the product after it is fitted.

## Before starting installation

Please remove all packaging and make sure no components are missing. The following components should be present:

ITEM	DESCRIPTION	4	Shower escutcheon
1	Shower handset	5	1/2"F x 3/8"F adaptor
2	3/8"M x 1/2"F shower hose	6	15mm x 3/8"F adaptor
3	Weight	7	Shower elbow*

\*Please note, the shower elbow is provided with an integrated check valve. This can be removed if required.

Please always ensure that installation complies with relevant backflow prevention requirements.

## Installation

1. Drill a hole in the mounting surface just large enough to accommodate the 32mm threaded bar then insert the escutcheon into the hole and secure it in position by tightening the nut as shown below.

2. Feed the 3/8" male end of the hose through the escutcheon then attach the hose and the handset to the elbow. Attach the weight onto the hose and then choose either the 1/2" F or 15mm compression adaptor to attach to the 3/8" male end of the shower hose.

## Contact Us
